

## Liberal Dialogue for Europe

### Let's Talk about Europe. Workshop II

RUDA ŚLĄSKA/ 7<sup>TH</sup> JULY, 2018

#### ABOUT THE EVENT

The time of political party documents written by groups of wise men in their offices in glass towers should be gone long time ago. Liberals tended to believe that their manifestos, election programmes and opinion pieces must be all about numbers and clear-cut definitions attractive for members of academia and white collars. However, the more successful parties around the world have understood that the key to winning elections is listening to people and include recommendations and ideas of citizens in their programmes.

The main aim of this project is to facilitate a dialogue with ordinary citizens, through a series of public consultations/workshops, about the main challenges the European Union is currently facing.

During the first workshop under the common title « Let's talk about Europe » participants will reflect on general topic of the European Integration and role of the EU in their own life.
