

Balancing the Carbon Budget – Policy Incentives for Negative Emissions

Side Event: 10 May @ 11.30–13.00, Kaminzimmer

ABOUT THE EVENT

Meeting the 2°C goal likely requires large amounts of bioenergy with carbon capture and storage (BECCS). This event puts the global carbon budget in context of key actors' priorities and policy incentives for BECCS, and explores scope for representation socio-political factors in climate scenarios.

EVENT SCHEDULE

11:30 BECCS in Energy System Models

Mariliis Lehtveer, Centre for Climate Science and Policy Research, Linköping University, and the Division of Energy Technology, Chalmers University of Technology

11:45 UNFCCC Delegates' Views of BECCS

Mathias Fridahl, Linköping University, and Forum for Reforms, Entrepreneurship and Sustainability (Fores)

12:00 Public Perceptions of BECCS Under Different Policy Instrument Framings

Rob Bellamy, Institute for Science Innovation and Society, Oxford University

12:15 Wide Horizons for Achieving Carbon Negativity via Industry in the Nordic Region

Keith Whiriskey, Climate Technologies, Bellona

12:30 Policy Requirements for Negative Emissions in the Stockholm District Heating System

Kåre Gustafsson, Stockholm Exergi, and KTH Royal Institute of Technology

12:45 Q&A

Broadcasted live through <https://bit.ly/2Ki9SS4>

An event organised by the European Liberal Forum (ELF). Supported by Forum for Reforms, Entrepreneurship and Sustainability (Fores). Co-funded by the European Parliament.
