Ralf Dahrendorf roundtable in Helsinki 14.2.2018

European Liberal Forum and Svenska Bildningsförbundet organized a roundtable discussion with the topic **“Finland, Sweden & NATO – Did Trump Change Everything?”**. The roundtable was also a publishing event for the ELF-report with the same name. There were 60 participants.

The event had three speakers: Andras Simonyi, Magnus Christiansson and Anna Kronlund. They also contributed a chapter to the publication. Discussion was intensive and the audience also participated actively. This event gave a good platform for a realistic and holistic NATO-discussion.

Jeroen Dobber from ELF participated at the event. We had a professional photographer on the venue and pictures can be downloaded [here](#).

More detailed report is going to be sent to ELF shortly.
